

Big Cedar Fish Passage Middle Fork Clearwater (Idaho CD)

Program	Water Quality Implementation
Lead Implementer	Idaho County Conservation District
Funders	Governor's Office of Species Conservation, Private Party
Other Organizations	Idaho Soil and Water Conservation Commission
Project Primary Contact	Stefanie Hays (stefanie.hays@id.nacdnet.net)
Project Stage	Completed
Duration	2019 - 2020

Natural Resource Projects & Practices ➤ Water Quality Implementation

The project worksite is on Big Cedar Creek, which flows into Clear Creek which flows into the Middle Fork Clearwater River. According to the Clear Creek Aquatic Habitat Condition Assessment, the biological diversity needs to be re-built or maintained. This project will remove the one of the two known fish barriers on Big Cedar Creek, creating fish access to an additional 1.9 miles of stream habitat. Technical assistance time is captured in the combined Idaho, Lewis & Clearwater TA request. Hours specific to this project are: FY2020: 8 hrs; FY2019: 49 hours; FY2018: 18 hours.

Key Accomplishments

- Culverts Removed: 1
- Landowner Site Visits: 8

Tracker tells stories at a broad-brush level. Individual project performance measures and expenditures should not be relied upon for complete and total accuracy and should be confirmed with a project's lead implementer. Project locations subject to confidentiality provisions under state and federal law specify the location of a local conservation district or USDA service center office.
